

Business 'Cell'utions from CetharSoft

Inform **shipment** Discrepancies to
Enterprise System immediately

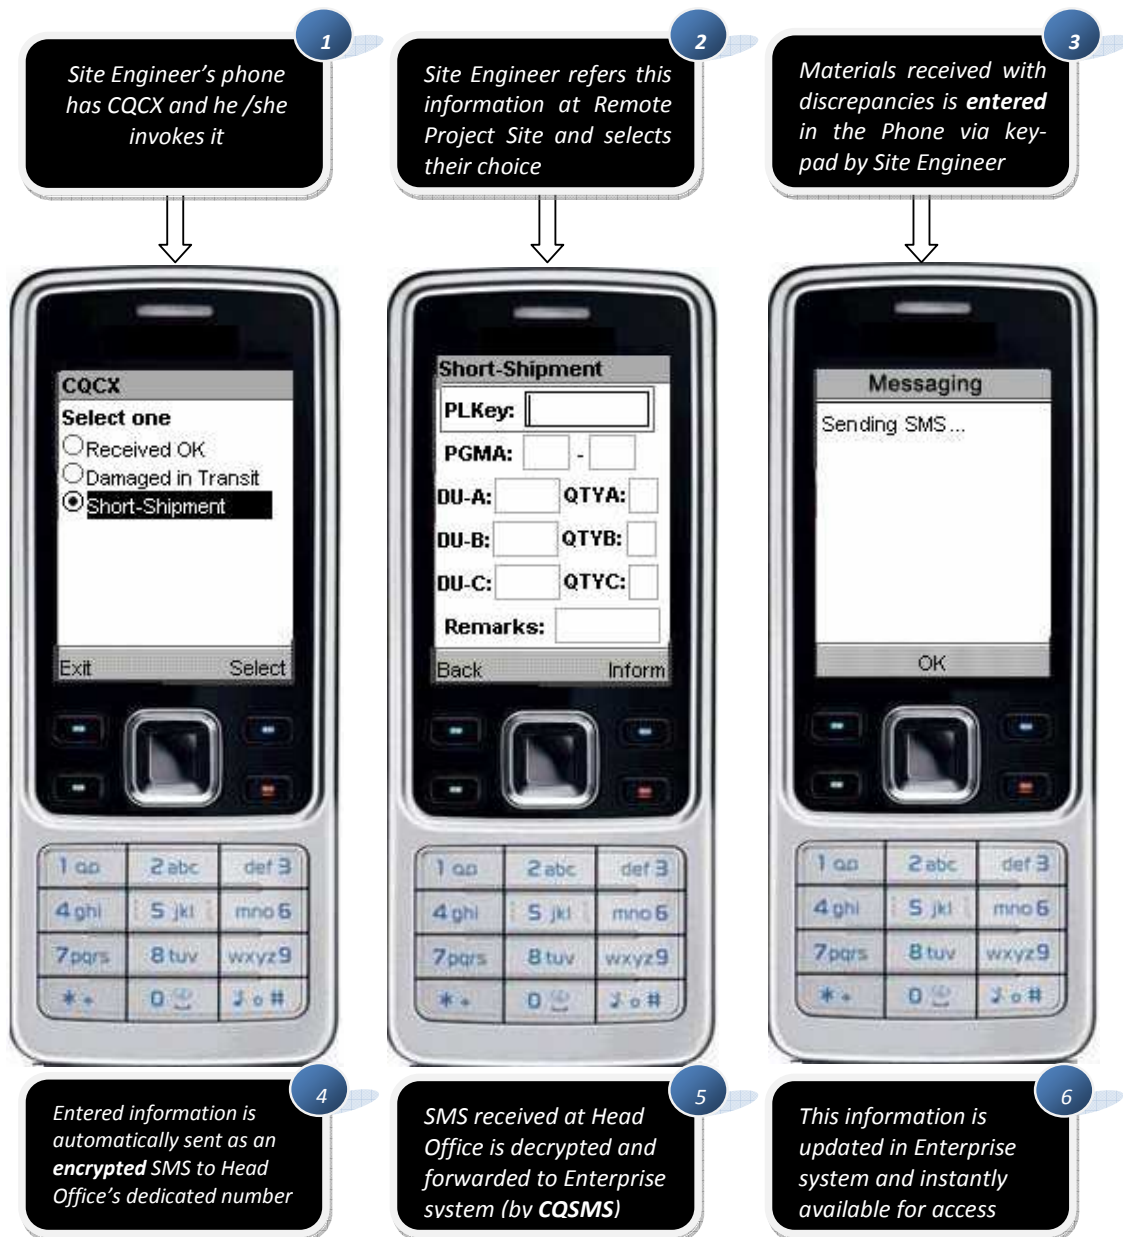

Email: cq@cetharsoft.com & info@cetharsoft.com

Material Receipts at Project Sites Simplified CQCX - Business 'Cell'utions from CetharSoft

Instant information update in just three simple steps

1. Invoke CQCX in a Cell Phone.
2. Enter Short Shipment / Damaged-In-Transit details
3. Update your Enterprise System using automated SMS

Cx CQCX is easy to Use

CQCX is quick and cost-effective

- Remote Project Sites with **uncertain data connectivity** can use a simple cell phone to update their Enterprise System directly.
- Instantly communicates Discrepancies in the Material Receipt to the Enterprise System as encrypted SMS.
- **Two Options - Load** the Contents of a Packing list and use the list or Enter the Packing list no. and other information.
- Extendable to other information such as Direct Despatch Advice, Inspection Report.
- Customisable to suit other specific needs of an organisation
- Messages also LOGGED in the Cell Phone memory for later reconciliation.
- Syncs with established procedures and processes and hence easy to implement.
- Occupies very less Memory Space in the cell phone.
- Onetime and recurring costs are much less compared to Hand Held Devices.
- Easy to use and hence requires very little training and quick to launch.

CQCX is feature rich

Uses Java J2ME technology	File copied using Bluetooth or cable or GPRS	Only authentic SMS are processed
Works with any Java enabled phones (most phones are Java enabled)	Secure as Cell-to-Cell copying is not allowed	Password required to open the file
Multiple Packing Lists in one cell phone	Data Logged in the memory card	Unique Ref-key built in
Control totals per session	Fewer key-strokes, easy navigation for fast access	Each message uniquely identified
No interference with other features of a Cell-Phone	Auto-suspends on incoming calls	Can be customized and interfaced to other systems
Works with CQSMS Engine	Auto-Confirmation of received messages	

CQCX has several advantages

- ✓ Each file is protected with a **password** ensuring safety and security.
- ✓ Each SMS is **encrypted** preserving the integrity.
- ✓ Each message is **tagged** with a unique reference to establish its authenticity.
- ✓ Easy operation using **simple key-clicks**.
- ✓ Feature-rich software **optimized** for the small screen size/keypad of cell phones.
- ✓ Works without interfering with the other functions of the cell phone.
- ✓ Does not need GPRS or Sophisticated and costly Cell Phones, to operate

CQ - Your powerful business companion

More value from an ordinary Cell Phone can be derived by deploying CQ Software from CetharSoft. Various versions of CQ Software are available apart from CQCX.

CQFX	For Microfinance Loan Management
CQBiZ	Store multiple contact lists, price lists and other information and refer any time
CQGX	For the Tourists – Location based directory inquiry
CQTX	Location tracking by SMS - for Shipments, lone travelers etc.
CQHX	A Cell Phone as a simple Hand Held Terminal – For offsite data collection
CQSK	Multi-colored, multi-sided Soft-Cards for Club members, Shoppers and others: No need to carry plastic cards.
CQSMS	2 Way SMS Engine that interfaces with CQ Software and your Enterprise System9s)
