

CQBIZ

Transforms your cell phone into a powerful business tool!

Simplify Address Book Management

Unlimited Entries

- Remove phone entry restrictions from your cell phone.
- Make multiple entries depending on your need.
- Great for storing extra information that is valuable.

Multiple Address Book

- Group contacts in an address book to create unique directories.
- Easily access a contact based on the grouping.
- Boon for anyone who needs to manage a large contact list, such as marketing executives, insurance agents, credit card salesmen, collection agents, police officials and many more...

Data Security

- Protect your address book with a password.
- Maintain confidentiality of your address book data.
- Freedom from fear of unauthorized data access at all times.

Easy to use and works in any ordinary phone
Uses minimal storage space
Allows address book uploading from a spreadsheet or Microsoft Outlook or Outlook Express

Does not interfere with other functions of a phone
Allows direct calling from the displayed item
Addresses can be maintained in a computer and uploaded to one or more phones

CQBIZ

Other Applications - limited only by your imagination...

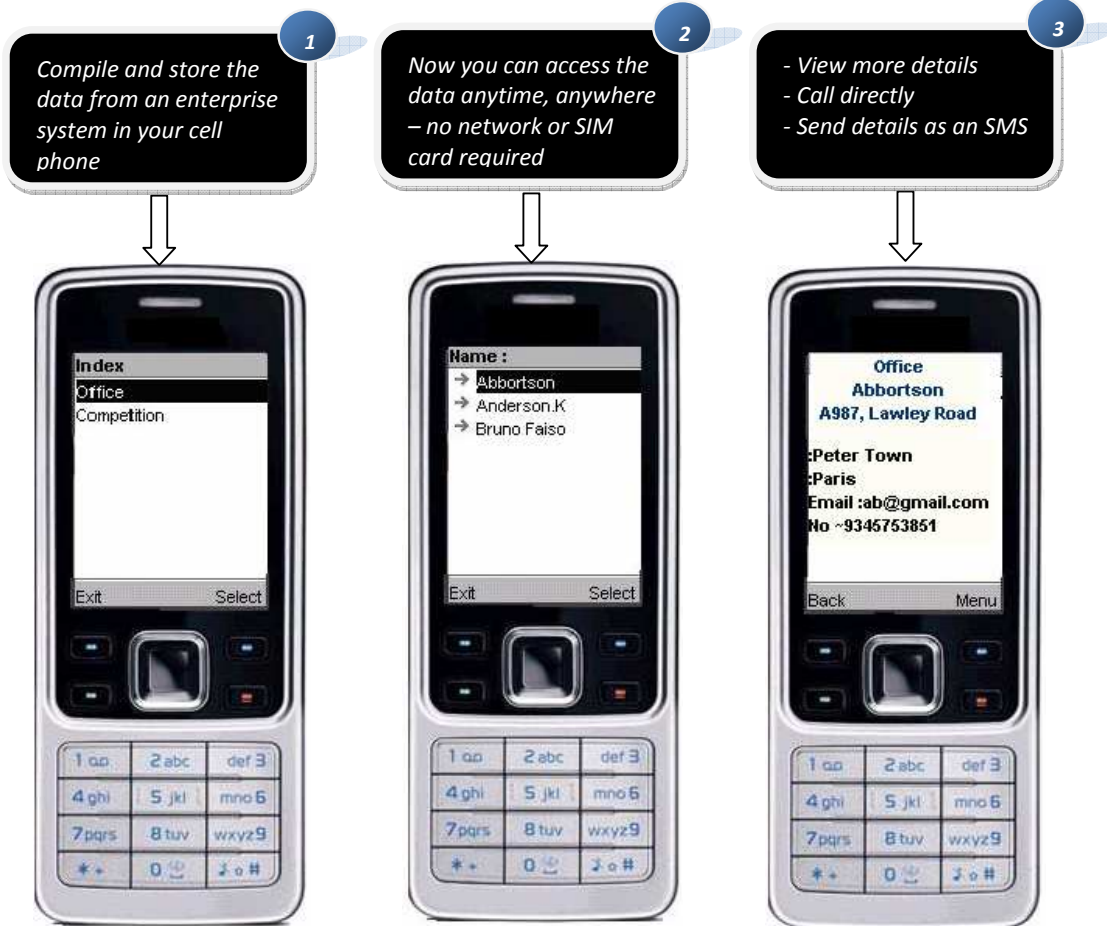

Using **CQBIZ**, distributors can provide the updated product price list instantly as *mobile files* to their marketing executives at multiple locations.

Using **CQBIZ**, technicians can *key-in* the fault code to be conveyed as an **SMS** to the *fault logging system*.

CQBIZ is Easy to Use
